CALL FOR PAPERS

The annual International Engineering Management Conference welcomes all papers related to the broad theme of engineering management, which includes topics such as the management of R&D, projects, production and operation, quality and reliability, and engineering human resources. The highlight of the 2004 conference is on innovation and entrepreneurship, especially those applied to sustaining and sustainable development, be it at a company or society as a whole.

IEMC 2004 invites papers and proposals for special sessions, tutorials/workshops on but not limited to the following topics:

- Design for Environment
- Environmental Management Systems
- Clean/Smart Energy Deployment
- Green Business Opportunities
- Environmentally-Sound Technologies
- Sustainable Growth
- Sustainable Competitive Advantage
- R&D Management
- Product Innovation
- International Project Management
- Supply Chain Management
- Corporate Entrepreneurship
- Technological Competence
- Sustaining Engineering Careers

All interested persons should submit one page abstracts (500 ~ 750 words) through the conference website. Each submission will be reviewed for technical merit and content.

Proposals for tutorials, workshops and special sessions are also welcome.

Deadline for submission of abstracts: 1 April 2004
Acceptance of Abstracts: 15 May 2004
Final Paper Submission: 15 July 2004

For more information, please visit the website or contact the Conference Secretariat.
